## ELECTRICAL RECONNECTION PROCESS

### City of Lagrange

200 Ridley Ave.  
Lagrange GA 30240

706-883-2060

Dear Customer,

To re-establish electrical service to a residence or structure, a permit must be obtained and an inspection conducted. Please provide proof of ownership, a signed lease or notarized authorization from the owner when applying for a permit. Once you have the permit on site, you may schedule an inspection via the [inspections@lagrangega.org](mailto:inspections@lagrangega.org) email. Please include any special instructions (call ahead, lock box codes, etc.) and a contact number. Inspections received by 4:00pm will be conducted the next regular day of business, excluding holidays or inclement weather. Note: the inspector will need to enter the building to inspect inside the panel.

Once the inspection is complete and the service approved, a release will be sent to the utility company. Should the inspection fail due to electrical or life safety issues, a correction notice will be left on site.

Electrical & Life Safety issues include but are not limited to: improper grounding or bonding of electrical systems, deterioration of electric equipment causing it to be un-serviceable, improperly maintained electrical services, hazardous existing wiring, new (recent) wiring installed without permits.

Sincerely,

William Hart  
Building Official
